

For Immediate Release:

LIFECORE ANNOUNCES EXECUTIVE CHANGES

Chaska, Minnesota – October 25, 2010 – LIFECORE BIOMEDICAL, LLC announced today that Kipling Thacker, Ph.D. has been appointed the Company's first Chief Scientific Officer and Vice President and Richard A. Curtis has joined the Company as Vice President of New Business Development.

"We are pleased that we have been successful in the growth of our Company and we remain committed to its continued growth," said Dennis J. Allingham, Lifecore's President and CEO. "We believe that these changes will present an even broader scope of industry knowledge and experience that will aid our ability to strategically find, attract and deliver on new opportunities to take our Company beyond our current threshold of growth."

Dr. Thacker has been with the Company for almost 30 years. Kip has served the Company in the areas of support and service for hyaluronan technical inquiries, scientific research, technical development and new business development. He is a co-inventor of Lifecore's hyaluronan fermentation process. He holds a Ph.D. in Microbiology from the University of Minnesota.

Mr. Curtis has worked in the medical industry for more than 15 years, contributing creative and effective growth for ATS Medical, Cardinal Health, Hillenbrand Industries, and St. Jude Medical. His comprehensive new business experience provides our Company with an enhanced skill set ideally suited to contribute to our strategic growth process. Rick obtained his Bachelors degree in Physics from Hamline University and his Masters in Business Administration from University of St. Thomas.

About Lifecore Biomedical

Lifecore Biomedical develops, manufactures, and markets biomaterials and medical devices for use in various surgical markets. The Company conducts its business through OEM and contract manufacturing alliances in the ophthalmic, orthopedic, and veterinary surgical fields.
